

Fully funded ESC-Volunteer-Program at Nature Community

Summertime 29th June - 29th August 2020 - Schönsee/Germany

Sustainability. Personal development. Group processes.

→ 2 vibrant months with 20 international volunteers ←

We invite you to live, learn, and work with us at the Nature Community during the summer months in the beautiful countryside in the south of Germany by the Czech border.

What will you do?

As a volunteer, you will get deep insights into our community, professional guidance (training and deep experiences in group process design and community building). We invite you to actively participate in our open community life and there is a special social & cultural program for the team volunteers.

Main activity areas will be ...

Renovations (specifically renovating our museum into a sleeping space), Helping to prepare and host smaller events, Working in the green areas and gardening, Cooking vegan food for big groups, Building compost toilets, outdoor showers and kitchens.

Where will you stay?

The Ecovillage that will host the volunteers is Nature Community. Our mission focuses on sustainable living and social development. We strive to support this mission by hosting different kinds of events (dance, yoga, music, meditation and personal development).

Living conditions will be simple with the focus on low ecological footprint. You may expect shared housing and common facilities and natural rural environment.

Who can apply?

Young people in the age range of 18-30, regardless of whether you have participated in an EVS or ESC project before. The countries we collaborate with in this project are: Russia, Turkey, Holland, Finland, Greece and Czech Republic

Apply via email by 2nd June
