## VOLUME 9

**From: September 2023 - June 2024**

**10 months long adventure in Transylvania**

# Did you know?

The majority of the local community has Hungarian ethnicity, which means they talk Hungarian and eat Hungarian as we say here. They even hold the Hungarian traditions as well. So you will have the opportunity to get to know many interesting local traditions as well, for example: the funeral of carnival, egg painting, folk dance, wood painting techniques.

# Who are we?

We are the Youth Association from Transylvania, but you can call us ATA. 12 years ago we had set a goal. A goal to show Europe to Transylvania, and to show Transylvania to Europe. We like to work with people, especially people from all around the world. Our hobbies are learning about new cultures and organizing amazing events for our local community and guests who come from various places! Until now, we organized youth exchanges, seminars, and training courses on many topics, from how to be a good citizen to addictions. We hosted volunteers whose main tasks included herbalism, activities with young children in kindergarten, showing their culture to the locals, and so much more!

# What is ESC?

# About the town

Regarding the location, CRISTURU SECUIESC lies at the eastern end of the Transylvanian plateau between the towns of Odorheiu Secuiesc and Sighișoara, 400 meters above sea level. There are a lot of hills, meadows, lakes, rivers, and forests for hikes and the Harghita mountains are also quite close. In 2011 there were 9491 inhabitants, 9266 of which were declared Hungarian, 183 Romanian, and 8 German while most of the Roma community declared themselves as Hungarian. The community nowadays works in the smaller textile, shoe, toy, and furniture factories that popped up in town with foreign companies. The town still has an agricultural aspect though as most of the community owns a few acres of land around the town and many have kitchen gardens. The youth community is abundant, with youth from all around the region going to the two high schools and one VET school. Some of the youth moving back from universities in the area also help the youth life.
